

Klasse'

SCISSORS
Catalogue

www.klasse.com

Website

Plus the entire range is already featured on **www.klasse.com** and we can surely add your name as *Klasse'* distributor to this great consumer site if you are indeed distributing this range in your region / area / country.

Klasse' Scissors

Klasse' is super proud to introduce for 2021/2022 a brand new exciting Scissors range. This range has been carefully selected to offer a range of the highest quality scissors available today, while offering a scissors range with comprehensive depth to cater for every cutting need and giving choice to every consumer. We do this through the popular retail term of "Good/Better/Best", which offers consumers a clear coloured coded well-coordinated scissors range with three distinctive clear choices, as clearly shown below.

<p>BEST</p> 	<p>PROFESSIONAL</p> <p>ORNATE</p>	
<p>BETTER</p> 	<p>ENTHUSIAST</p>	
<p>GOOD</p> 	<p>EVERYDAY</p>	

 **Plastic Free Packaging (PFP)**

100% plastic free packaging is also a key factor in this new range. A double sided full color printed card in 350 gram paper folded to create 700 gram strong card, with a coloured paper covered wire tie that is twisted and lies within the card. Super Safe & Super Strong, while catering for the fastest retail growth need in the market. Plastic Free Packaging.

 **RF CODE**

Plus security and anti-theft has been considered and assisted with this program. As for all scissors with a projected retail price of over USD25.00 has RF secure sticker also with the card. So big retailers/stores that have retail security system can feel safer with the higher end scissors of the range.

S - Stocked Item.

T - Low reorder qty possible, see each item for the MOQ per shipment.
